Docket No. H-122
Room N-2625

Washington, DC 20210

Dear Sir or Madam,

I think it's wrong for OSHA to limit when and where I can smoke. I am very opposed to the regulation.

We do not go to McDonald's because they do not accommodate smokers. Any restaurant that doesn't have a smoking section, we avoid. I feel that every business establishment should have a smoking area. I just think we should have an option. I don't like being dictated what I can and can't do, especially by the government.

Yours truly,

Marie Calhoun
